While selecting your designer bedding linens, it's important to consider the theme of your home. If your decor features an upscale theme, perhaps a comforter and sheet set by Michael Kors, Manor Hill, Nicole Miller or Aura Lifestyle will be the perfect fit. If you enjoy traditional accessories with a modern twist, Tommy Hilfiger bedding linens will adorn your bed with plenty of style. If you enjoy a variety of colors, fun prints and contemporary artwork in your linens, the Echo Home bedding collection will fit the bill. If casual is your intended theme, consider the Stone Cottage linens collection for traditional designs and quality workmanship -- all of these are available. Designer bedding linens aren t just for adults, however, as children also enjoy a modern look with a fun attitude. If you have a youngster in your household, the Hiccups designer kids & teen bedding collection is a must. Adorable prints, fun colors and bright applique come together for the perfect combination that any child is sure to love. Speaking of fun, Izzy Surf bedding is sure to be a terrific addition for the ocean lover or for anyone who lives near the sea. If romance is your intended theme, many of the industry s top designers have produced collections that are sure to please. The Tranquility collection by L erba features creme linens highlighted with golden pillows and accents to create a beautiful scene in the presence of candlelight. If floral bedding is more your style, Laura Ashley is the designer for you. Collections including Emilie, Secret Garden and Victoria Inn are just a few of the highlights from this popular bedding designer. When you shop for designer bedding linens, you will find that you can either purchase the entire collection of linens as a set or you can purchase items separately for a truly personalized look. Almost all bedding lines are available with coordinating pieces, but Manor Hill by Revman is a luxury bedding line specializing in the Bed in a Bag option. With one purchase, you will get everything that you need to turn your basic bed into a classic and modern refuge. In addition to purchasing designer bedding linens, you may want to consider accessories that will help to make your sleeping experience even better. Among them, a comforter, featherbed, mattress pad and versatile duvets will help to add both comfort and functionality to your bedroom decor. A feather and down comforter will keep you warm in the winter and cool in the summer, while a featherbed conforms to your body as you literally rest in a bed-sized pillow of feathers. A mattress pad works much the same as a featherbed, but uses a soft material that feels spongy to conform to your body as you sleep. Designer bedding is more than just a name. In fact, it's a feeling that you get when you come home from a hard day at work and want to enjoy the kind of quality sleep that can only be found through the perfect combination of luxury linens and designer names that we have all come to know and love in the world of bedding.
